

ITEC PRESENCE

The Lectern for Your
Successful Presentation

Fascinating functionality
Impressive design
Convincing sound

Transportabel

Set up in no time

Everything included

Ready to use immediately

The PRESENCE lectern, including your entire audio system, is ready to use within just 30 seconds: Set it up, turn it on, and that's it!

For your successful presentation you neither need a cable nor a power outlet – just press a button, and the audio system automatically performs all optimum adjustments for the room size, acoustic conditions and number of people!

Efficiency You Can Rely On:

- Design lectern with integrated speaker system
- Off the line thanks to integrated high-performance battery
- Easy to transport and operate
- Set up and ready to use within just 30 seconds
- Automatic operation for optimum acoustic adjustment
- For indoor and outdoor use at any time
- Sound performance for up to 500 people
- Excellent speech intelligibility
- Great mobility with up to three wireless microphones
- High-end music playback
- Interface for PC and media control

The New Design

Clarity and transparency The PRESENCE lectern meets these requirements twice: in its design and sound quality. Your acoustically successful presentation thanks to speech clarity and music playback transparency.

The elegance of modern lines emphasises any speaker's expressiveness and dynamics; the intelligent functionality provides a feeling of safety and comfort.

Not least, it is also the pleasantly authentic reproduction of your own voice that makes you feel comfortable during your presentation!

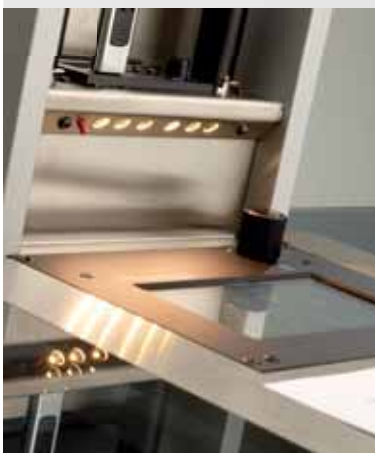

Right Down to The Last Detail

Light strip and touch screen

Stylish drinking glass holder

Sufficient space for your laptop

Logo easily replaceable

Freedom of Movement Thanks to Wireless Microphones

Hand-held microphone: Universal use, easy handling

Clip-on microphone Discreet, comfortable to wear

Headset: The professional solution for top clarity

Maximum Flexibility for Your Presentation

Even when operated on its own, the attractive functional column of the PRESENCE lectern is a high-quality audio system for your presentations, road shows and seminars.

The PRESENCE lectern is also an excellent music system for discreet background sound atmosphere or high-volume mood music. Your event is guaranteed to be a success!

Optional: Remote control via tablet, smartphone or laptop using WLAN.

Feeds and Connection Options

Integrated USB player to play music or record an entire presentation (optional)

Clearly structured ports for other microphones, external players and connection with other systems.

Extended Audio Performance

Multiply the audio performance of the PRESENCE lectern by adding ITEC Active Speakers at large events! Transmission from the lectern to the speakers is done via an audio line or, for increased comfort, wirelessly.

Versions and Special Colours

Choose from a variety of versions and combination options. Optionally, the colours of the PRESENCE lectern by ITEC can be customised to your specification.

Large Rooms and Halls

The PRESENCE lectern is excellent for integration into the technical concept of existing or planned halls. Its inclusion in existing media control systems allows for uniform operation together with other room-related systems.

SPECIFICATIONS

GENERAL	
Characteristics	- Presentable designer lectern with integrated speaker system - Cable-free and fully independent from the power grid due to the built-in high capacity rechargeable battery - Easy to set up and dismantle without any tools, easy to transport
Amplifier W / RMS Power	75 W / RMS
